Letter from the President

Dear students,

Our era is characterized by increasing globalization. Every day, technological advances that allow for the instant transmission of information change the way we communicate, the way we work, the way we learn and the way we live our lives. At the same time, international trade and tourism and worldwide media communication are expanding. Individuals, corporations, markets, and nation-states can reach around the world faster and more cheaply than ever before. Traditional boundaries between culture, commerce, technology, politics, and the environment are rapidly disappearing. National borders are no longer barriers to learning, living, and working. People may speak different languages, eat different foods, and worship in different ways, but we do not do so in isolation. The world today is a global village and we are all members of the same community.

Our aim is to provide you with the knowledge, experience, and multicultural perspective that will allow you to explore, learn, question, create, and thrive as productive members of a global society in your chosen careers. We are dedicated to an interactive teaching style, and we maintain high expectations for our students and high academic standards in the classroom. We are committed to giving you the personal attention, support, and care necessary for you to succeed and realize your full potential.

Sara Crutcher, USA

When choosing a city in which to study abroad, there were many options, but one was a clear cut above the rest – Prague. Not only would I get a chance to immerse myself in one of the richest cultures in Europe, but I would be provided with an opportunity to continue my classes at a top-notch school, the University of New York in Prague. If anyone is considering an exchange program, without question, I recommend making your way to the Czech Republic.

STUDENT TESTIMONIALS

Matouš Janda, Czech Republic
Small classes (an average of only 18 students), an individual approach and opportunities for practical experience at various companies and institutions really make UNYP special. I just finished a six-month internship at the US Embassy, which made my Prague experience all the more interesting.

Paulína Vráblová, Slovak Republic
I decided to study at UNYP based on a friend’s recommendation, and I am very happy here. I like the teaching experience – small groups and an interactive teaching style with plenty of discussions between students. The professors have a lot of practical experience as they have worked in their fields for many years, and now share their know-how and experience with us in class. UNYP’s cultural diversity is great, and I have friends from all over the world. Under the UNYP international program, we can spend a semester abroad studying with one of their accredited partners’ universities – another great benefit. I am a happy UNYPer!

Nicole Severin, Czech Republic
I was delighted that I could study for an American degree while staying in the Czech Republic. Studying in a school with students from over 65 different nationalities allows for an amazing cultural mix, and we all learn a lot about other cultures during interactions in and out of class. My best friend is from the Seychelles, and my professors are from the States, Ireland and Britain.
