University of Applied Sciences

WELCOME TO
CENTRIA UNIVERSITY
OF APPLIED SCIENCES

Finland

centria
University of Applied Sciences

Just the right combination of creative madness and common sense

As a higher education institution, Centria is not like everyone else, but a bold traveller of its own path. We believe in courage and the strong role of students in the university's affairs, also in decision-making. We offer you a bold approach to future working life. At Centria, education, research and

real encounters lay the foundation for learning and your future working life. In the annual survey for graduating students in Finland, our Master's students have assessed their education as the best among universities of applied sciences in Finland for several years in a row.

HEI! Finnish word for "Hello!"

Finland is a modern and safe country full of natural beauty. Finland has high standards of education, social security and healthcare. According to Universitas 21 Ranking 2020, Finland's higher education system is one of the best in the world.

The happiest people in Finland live on the west coast in Centria's operational area.
