About WU

WU is a renowned public university of business and economics in Vienna, Austria. WU has an international outlook and is actively working to live up to its social responsibility as an educational institution for the leaders of tomorrow.

WHAT SETS WU APART

If you decide to study at WU, you will not only receive an academically well-founded education, but also the qualifications and preparation you need to take on responsibility in business and society. WU students acquire the diverse skill set they need to help face the economic, social, legal, and ecological challenges of our time.

EXCELLENT RESEARCH AND RESEARCH-LED TEACHING

WU is home to researchers who rank among the best in their disciplines. Our students benefit from WU's research activities as well, because the courses taught at WU draw on the latest research findings to ensure that the knowledge and skills WU teaches its students are cutting-edge and up-to-date.

WU EMBRACES INNOVATION

Innovation has a long tradition at WU. WU is a university that not only recognizes current trends, but embraces them early on. Innovations at WU include the establishment of the Research Institute for Cryptoeconomics. This area of research focuses on blockchain technologies, digitalization, and the future of the internet.

CAREER SUPPORT

WU's ZBP Career Center provides advisory and support services to students to help them find attractive employment and to support their career development even before they graduate. Every year, the Career Center posts over 3,000 job advertisements. It serves as a reliable point of contact that will assist you with your first step towards your dream career.

The WU Entrepreneurship Center is placing special emphasis on startups and the attractive career opportunities available to entrepreneurs. The establishment of the center demonstrates clearly that WU recognizes innovation and entrepreneurial thinking as key skills for the future. The WU Entrepreneurship Center is the university's hub for all students interested in starting their own business.

A LONG-TERM CONNECTION

Alumni are an important part of the WU community. Through an international network with hubs around the world, networking events, panel discussions, and a direct line to your alma mater – alumni stay in touch with WU for a lifetime.

3

ACCREDITATIONS

EQUIS, AACSB, and AMBA

WU ranks among the best universities for business and economics in the world. Since 2007, this status has been certified by regular accreditations carried out by 3 leading accreditation agencies: EQUIS¹⁾, AACSB²⁾ und AMBA³⁾ have all confirmed WU's excellent quality. Fewer than 1% of all universities worldwide hold this prestigious triple accreditation.

120

COUNTRIES

An international environment

Vienna attracts a highly international student body, and WU is home to 22,000 students from over 120 countries. WU also boasts a highly international faculty. As a student, you benefit from the comprehensive experience our teachers have gained at prestigious universities all over the world. All of this contributes to the highly international environment WU has to offer.

240

PARTNER
UNIVERSITIES**A global network**

Are you interested in spending a semester abroad in, say, London or Shanghai? WU's network of about 240 partner universities around the globe offers our bachelor's students exchange opportunities at Europe's most-renowned universities, like Copenhagen Business School or Bocconi University, as well as high-profile schools in Asia, Australia, and North and South America.

¹⁾ EQUIS = EFMD Quality Improvement System ²⁾ AACSB = Association to Advance Collegiate Schools of Business ³⁾ AMBA = Association of MBAs

WU's Program Portfolio

WU offers a wide and diverse range of degree programs based on the international three-tier program standard. This program structure ensures that programs completed at WU are internationally recognized and encourages student mobility.

About the BBE Program

The WU Bachelor's Program in Business and Economics (BBE) will enable you to comprehend the complex interrelations of global business and economics. You will learn to assess how global trends and developments such as digitalization affect business and economics around the world.

100%

GLOBAL
PERSPECTIVE

Current topics in business and economics

The BBE program deals with more than just business and economics. It highlights a global view on major challenges, such as ageing, poverty, migration and climate change, and integrates related fields such as business law and history. You will develop multidisciplinary skills.

>35

NATIONALITIES

Study in an international environment

The BBE program attracts students from all over the world. Hone your communication, teamwork, and other interpersonal skills in an international environment.

>30

SPECIALIZATIONS

Follow your interests

After you have learned the fundamentals of the fields of business, economics, and law, the program allows you to choose from a vast array of specializations. Create your own profile by customizing your program to reflect your interests.

1

COMMUNITY
SPIRIT

A strong community

Right from the start, networking is encouraged by the interactive design of the courses. You will build long-lasting contacts and get support from your peers, even those from different years.

What Sets the Program Apart?

The program provides you with profound economic and business knowledge and enables you to understand and explain economic relationships and interdependencies.

Today's world is characterized by increasing complexity and highly interconnected networks. International trade is subject to complex regulations, the financial systems follow their own special rules, and digitalization is creating serious challenges for organizations, governments, and companies. Political, economic, ecological, and social questions are closely interrelated. The key players of the future need to be able to understand and explain these complex interrelationships. This is the main focus of the Bachelor's Program in Business and Economics.

SOLID BASICS

In the BBE bachelor's program, you will learn about global business trends and economic challenges and how organizations can deal with them, taking a multidisciplinary approach. We offer a comprehensive, international education in business and economics with a strong analytical focus. You will deal with key business concepts, legal aspects, financial and data analyses, as well as economic models and contextual subjects. This will give you a solid foundation for individual specializations and electives.

MAKING RESPONSIBLE CONTRIBUTIONS TO BUSINESS AND SOCIETY

WU's goal is to prepare its students to take on important positions of responsibility in business and society. To qualify for such key positions, the BBE program encourages you to develop your personal skills and abilities. This includes managing individual and group projects, reflecting on your activities in a professional context, and honing your communication skills.

Within the scope of the curriculum, you will deepen your expertise and broaden your horizon through learning from researchers in the field and discussing and working together with your peers in an international environment.

“The bachelor’s program at WU was my stepping stone to a career in marketing. After working abroad for a couple of years, I founded my own marketing consultancy.”

Melanie Hetzer, WU graduate

We're hiring WU graduates because ...

“... they are perfectly equipped for a successful career with EY: They have an excellent education as a foundation for ‘on the job’ specialization, outstanding skills, an open mindset, and the motivation to shape, change, and re-invent the business world.”

Gunther Reimoser, Country Managing Partner, EY Austria

“... they are very well qualified for a career in various professional fields at REWE International AG. Our experience has shown that WU graduates have an excellent chance of reaching management-level positions with leadership responsibilities very quickly.”

Marcel Haraszti, Member of the Board at REWE International AG

“... they're very well trained. Education is a privilege that we can use to benefit society, and we pass on these benefits to our customers. Together we can do great things.”

Markus Posch, Head of Group HR, Erste Group

Prospects for Graduates

The Bachelor's Program in Business and Economics prepares you for a career in various fascinating fields requiring capable all-rounders. In addition to starting out in your professional career, you also have the option of continuing your academic education with a master's program in Austria or abroad.

STARTING YOUR PROFESSIONAL CAREER

The Bachelor's Program in Business and Economics provides graduates with a well-founded academic qualification in business administration and economic sciences with a strong analytical focus. Graduates are well suited for a variety of positions in private business, the public sector, and nonprofit organizations. The variety of specialization options available allows you to acquire advanced expertise according to your individual qualification goals.

WU graduates are in high demand on the job market. HR managers highly appreciate their excellent education and their eagerness and motivation to make things happen.

GRADUATE EDUCATION

BBE graduates have numerous other options in addition to starting their professional career.

If you are interested in pursuing a graduate degree, you are qualified for advanced Austrian and international master's programs in various business and economics-related disciplines. WU offers a portfolio of 16 master's programs, nine of which are taught entirely in English. BBE graduates are also optimally prepared to continue their education at another of the renowned international universities.

Program Structure

The program begins with an introductory phase. After gaining a solid foundation in business and economics in the core courses, including social and legal perspectives, you will go on to apply your skills in practice in various projects. In the third phase of your studies, you can further specialize and refine your profile.

AT A GLANCE

- › Duration: **6 semesters**
- › Credits: **180 ECTS**
- › Academic degree: **Bachelor of Science (WU), abbreviated as BSc (WU)**

Bachelor's Program in Business and Economics**

Specializations and Electives

After establishing a solid knowledge base, the program allows you to choose from a wide selection of specializations. This flexible approach allows you to focus on the subjects you would like to know more about.

SPECIALIZATIONS (40 ECTS)

In this phase, you can focus on your individual interests by choosing your specializations from a variety of disciplines, e.g. business administration, economics, socioeconomics, or law. You have the opportunity to sharpen your profile and to gain expertise on new topics.

For example, you can choose to focus on strategic aspects, international business, or entrepreneurship and innovation. You will deepen your understanding of complex issues, apply your knowledge, analyze data, identify relevant factors, develop problem-solving strategies, and make evidence-based decisions in a variety of fields.

Maybe you are fascinated by the role that communication plays in international business. Economic globalization and rapid developments have meant that nowadays many organizations operate on an international scale, or interact with consumers, clients and/or partner organizations in other countries. Learn how to communicate with stakeholders who may have a variety of language and cultural backgrounds.

Or maybe your passion is for the challenges faced by multinational organizations: How do companies transfer knowledge between international organizations? What characterizes regional corporate strategies? Which issues are important when dealing with international teams?

WU helps you follow your interests, wherever they may lie.

Find out more

FREE ELECTIVES AND INTERNSHIP (25 ECTS)

Widen your horizons with an individualized portfolio of free electives. Free electives can be any course that requires an examination offered by any recognized university in Austria or abroad.

You'd like to apply your knowledge in practice? Then go for an (international) internship in an organization or company of your choice. This will give you the opportunity to prove your skills and capabilities.

International Experience

Studying at a university is learning for life. This is especially true in completely new surroundings. Broaden your horizons with an exchange semester abroad or by attending an International Summer University program.

EXCHANGE SEMESTER

WU's network of partner universities to choose from spans the globe (180 in the Bachelor). Whether you are interested in an exchange semester in Paris or London, whether you want to spend it in the USA or in Bangkok, our International Office will help you plan and organize your semester abroad.

INTERNATIONAL SUMMER UNIVERSITY PROGRAMS

You can't or don't want to leave home for such a long period of time? International Summer University (ISU) programs offer WU students a great opportunity to attend short, internationally oriented academic programs abroad. Participating in such a program means spending several weeks in countries like Portugal, or Thailand taking courses, going on field trips, and attending other events together with fellow students from around the world.

DOUBLE DEGREE PROGRAM WITH QUEENSLAND UNIVERSITY OF TECHNOLOGY

Are you interested in spending an entire year studying in Australia? In cooperation with QUT in Brisbane, selected BBE students will have the opportunity to do just that. You will not only earn a second academic degree in only one extra year, but you will also experience Australia's culture and wildlife.

THE WORLD AT WU

Since students from over 120 different countries study at WU, you also benefit from international exchange right on Campus. Get to know incoming exchange students from around the world or take part to an International Summer University at WU and chat with international students about what it's like to study and live where they're from. You will make international friendships that will last a lifetime.

WU SUPPORTS INTERNATIONAL EXCHANGE

WU offers numerous financial aid options for studying abroad, including mobility grants for exchange semesters, internships in Europe, and International Summer University programs. The International Office is available to provide you with advice and assistance if you have any questions.

the international experience

Application & Admission

THE ADMISSION PROCESS FROM START TO FINISH

THE SELECTION PROCEDURE

The program starts in the winter semester only.

In spring, a selection procedure is held for the Bachelor's Program in Business and Economics. Students who successfully complete the selection procedure can start the degree program in the subsequent winter semester. Please note that the formal criteria for enrollment have to be met too.

For detailed information, including all dates and requirements, please see our WU Application Guide

Vienna and Campus WU

A modern international environment in a lively city as well as colleagues and faculty from around the world help our students grow – both professionally and personally.

THE VIBRANT CITY OF VIENNA

Vienna is the largest university city in the German-speaking region and one of Europe's most popular destinations. As the world's most livable city, it offers a unique combination of urban flair with beautiful natural areas. Students, faculty, and visitors from around the world agree that the city's excellent infrastructure and vibrant cultural life make it a great place to live and work.

Studying in this stimulating urban and cultural environment gives you countless opportunities to expand your horizons well beyond the university's walls.

WU'S CAMPUS AND LEARNING INFRASTRUCTURE

The most important goal when planning the WU campus was to create a working environment for students, faculty, and staff that facilitates productivity and communication. Every member of the WU community should find the ideal conditions on campus for developing to their full potential. A well thought-out floor plan with a wide variety of room options for different needs and working styles helps achieve this goal.

Apart from its impressive, award-winning architecture, WU's modern campus also boasts a range of attractive dining options and publicly accessible grounds that encourage students, staff, and area residents to explore Campus WU and enjoy its unique atmosphere. Campus WU provides meeting places and open spaces and has given Vienna's second district a whole new neighborhood.

- ▶ **VIENNA** IS THE WORLD'S MOST LIVABLE CITY (3 YEARS IN A ROW)
- ▶ **TOP 5** AMONG THE MOST INNOVATIVE CITIES IN EUROPE
- ▶ **NO 1** AMONG THE WORLD'S BEST START-UP CITIES
- ▶ **197,209** STUDENTS IN VIENNA, 22,000 OF THEM AT WU
- ▶ **SUSTAINABLE** CAMPUS – CLIMATE-NEUTRAL SINCE 2019

“Studying at WU is not only about preparing for a career. It’s learning for life, building up a professional network, and making friends. We offer you first-class education at the highest international level and invaluable experience. Be part of it! Welcome to WU!”

Rupert Sausgruber, Rector
